Nora Whitfield

Frontend Engineer, Leeds, UK
nora.whitfield@example.com | linkedin.com/in/norawhitfield | github.com/norawhitfield

Summary

Frontend engineer with five years of experience building customer-facing web applications for health and fintech teams. Most comfortable in React and TypeScript, and in the unglamorous work that keeps a large interface consistent.

Experience

Software Engineer, Lumen Care, Leeds, UK | Mar 2022 - Present

- Led the migration of the patient portal from JavaScript to TypeScript across 60 screens.
- Built and documented a shared component library now used by five product teams.
- Cut largest contentful paint from 4.1s to 1.6s by splitting bundles and deferring scripts.
- Ran weekly releases through GitHub Actions, with automated visual regression checks on every PR.
- Built accessible checkout forms and checked them with VoiceOver and NVDA.
- Onboarded two new engineers onto the component library.
- Responsible for the checkout redesign.

Frontend Developer, Brightwell Digital, Manchester, UK | Jun 2019 - Feb 2022

- Developed React interfaces for three client apps, from first sketch to launch.
- Helped the team move to a shared Figma library and wrote some of the docs.
- Wrote Jest and Playwright tests for the booking flow, raising coverage from 31% to 78%.

Education

BSc Computer Science, University of Leeds, 2019

Skills

React, TypeScript, JavaScript, Next.js, GraphQL, Jest, Playwright, GitHub Actions, Storybook, Figma
